Hide Answers

Question 1: ✔ Correct answer
According to the AI Fluency Framework, what does AI Fluency mean?

- ~~Becoming a technical expert in AI development~~
- **The ability to work with AI effectively, efficiently, ethically, and safely**
- ~~Memorizing the best prompts for different AI tools~~
- ~~Using AI to automate all possible tasks~~

Question 2: ✔ Correct answer
The four core competencies in the AI Fluency Framework are known as "The 4 Ds." Which of the following lists all four correctly?

- **Delegation, Description, Discernment, Diligence**
- ~~Direction, Description, Decision-making, Diligence~~
- ~~Data, Delegation, Discernment, Documentation~~
- ~~Design, Description, Development, Deployment~~

Question 3: ✖ Incorrect answer
Which competency focuses primarily on deciding what work should be done by AI versus what should be handled by humans?

- ~~Discernment~~
- ~~Diligence~~
- ~~Description~~
- **Delegation**

Question 4: ✔ Correct answer
According to the framework, what is the primary focus of the Diligence competency?

- ~~Writing better prompts for AI systems~~
- ~~Evaluating the quality of AI outputs~~
- ~~Making AI work faster and more efficiently~~
- **Responsible AI use, transparency, and accountability**

Question 5: ✔ Correct answer
Which of the following best describes "Problem Awareness" within the Delegation competency?

- ~~Knowing how to write effective prompts~~
- ~~Understanding which AI platform to use~~
- ~~Evaluating the quality of AI outputs~~
- **Clearly defining your goals and understanding what work is needed before involving AI**

Question 6: ✔ Correct answer
Which competency focuses on communicating clearly with AI systems about what you want, how you want it done, and how you want to interact?

- ~~Discernment~~
- ~~Diligence~~
- **Description**
- ~~Delegation~~

Question 7: ✔ Correct answer
Which of the following best describes "Product Description" within the Description competency?

- **Clearly defining what you want the AI to create or provide**
- ~~Explaining which AI platform to use for a task~~
- ~~Evaluating whether AI outputs meet your requirements~~
- ~~Taking responsibility for AI-generated content accuracy~~

Question 8: ✔ Correct answer
Which competency involves critically evaluating AI outputs, processes, and behaviors to ensure quality and appropriateness?

- **Discernment**
- ~~Diligence~~
- ~~Description~~
- ~~Delegation~~

Question 9: ✔ Correct answer
Which of the following best describes "Process Discernment" within the Discernment competency?

- ~~Deciding which AI system to use for a task~~
- **Assessing whether the AI's reasoning process and problem solving approach is effective**
- ~~Ensuring transparency about AI involvement in your work~~
- ~~Judging the final quality of AI-generated content~~

Question 10: ✔ Correct answer
Which of the following best describes "Transparency Diligence" within the Diligence competency?

- ~~Ensuring AI outputs are technically accurate~~
- ~~Making AI work as fast as possible~~
- ~~Choosing the most advanced AI system available~~
- **Being open and honest about AI's role in your work with those who need to know**

Question 11:
How satisfied are you with the content provided in this course?

- Satisfied
- Not very satisfied
- Very satisfied
- Neutral
- Not at all satisfied

Question 12:
How likely are you to recommend this course to a friend?

- Not sure
- Somewhat unlikely
- Somewhat likely
- Not at all likely
- Very likely

Question 13:
Please share any feedback to help us improve this or future courses!
